

Simplex Spelling - Free Lite Version Now Available

Published on 09/27/11

Simplex Spelling is now available for free with the release of Simplex Spelling Lite. The Lite version contains all of the features of the paid version, but with over 50 all new high frequency spelling words. Simplex Spelling Lite complements the full version of Simplex Spelling HD beautifully allowing students to expand their spelling and reading fluency. Simplex Spelling HD has received rave reviews and praise from the media and has also been featured by Apple in New and Noteworthy in Greece.

Edmonton, Canada - Pyxwise Software Inc. today is pleased to announce the release and immediate availability of Simplex Spelling Lite, a free version of their critically acclaimed spelling application.

Simplex Spelling uses a powerful and unique "reverse phonics" approach to spelling designed by Dr. Lisa Welburn Ph.D. This reverse phonics approach has been combined with contextually relevant spelling rules to help students learn "How to Spell" English words. The hint feature within Simplex Spelling works as a personal spelling coach on every word. Students can easily review their "Missed Words", and parents can quickly monitor their child's progress to see which words they have been struggling with.

Simplex Spelling HD has received rave reviews and praise from the media and has also been featured by Apple in New and Noteworthy in Greece. In Canada it has been featured on the front page of "What's Hot" in the Games Education category.

Device Requirements:

- * Works with iPhone 3GS, iPhone 4, 3/4G iPod touch and iPad
- * Requires iOS 4.0 or later
- * 25.5 MB
